

**Organisation Overview:**

GAAP – laboratoire de géomatique agricole  
Founded in 2001, the Laboratory is attached to the Faculty of Forestry and Geomatics of Laval University. The Laboratory mission is essentially in research and training in the field of Geomatics and applied optics as well as Information technologies and decisional support system applied in environment and agriculture.

**Technology Overview**

The GAAP have a unique infrastructure in geomatics as well as in optics and remote sensing (Sensors, processing tools, etc.). The laboratory is one of the leader in its field in Canada.

**Organisation Partners:**

<http://www.gaap.ulaval.ca/DesktopDefault.aspx>

(Industry, Government, Academia – too long to list here, please refer to the above link)

The GAAP also hold an industrial research consortium in optic and environmental geomatics. The partners are: Telops ([www.telops.com](http://www.telops.com)), Innotag ([www.innotag.com](http://www.innotag.com)), Dynaco ([www.dynaco.ca](http://www.dynaco.ca)), Lasermap and GPR Consulting ([www.lasermap.ca](http://www.lasermap.ca)) . We are also part of an European research consortium, GeoTraceAgri ([www.geotraceagri.net](http://www.geotraceagri.net))

**Partnering Needs/Opportunities:**

Research, financing and technology partnerships.

**Established:** 2000

**Number of Staff/Employees:** 7

**Industry Sector:**

Information and Communications  
Technologies and Geomatics

**Products/Services:**

Technologies (optics, Decisional Support System, Information processing tools and algorithms), system development and training.

**Contact Information**

Dr Alain A. Viau , Director  
Professor and Researcher

**Address:**

GAAP, Département des sciences géomatiques, Université Laval, Pavillon Casault, Local 3731, Sainte Foy, Québec, Canada G1K 7P4

**Telephone:**

+1 (418) 656-2072

**Fax:**

+1 (418) 656-5837

**E-Mail:**
