

Organisation Overview:

WinMagic Inc. develops disk encryption software. Its SecureDoc line of products ensures protection of sensitive information stored on desktops and laptops by employing authentication from password to hardware token, biometrics and PKI, commencing right at pre-boot time.

WinMagic's award winning products fulfill the requirements of even the most security conscious users by focusing on concrete security features, nevertheless still allowing users unparalleled flexibility and effortless usability.

[WinMagic Inc.](#) is a Canadian company based in Mississauga, Ontario, Canada.

Technology Overview

WinMagic develops its own disk encryption products, the SecureDoc product line. Utilising Public Key Cryptographic Standards PKCS#11 from ground up for extreme adaptability, the SecureDoc line has earned an impressive list of validations including NIST Cryptographic Module Validation, FIPS 140-1 Level 2 and the Common Criteria Evaluation Assurance Level 4 (EAL-4).

Organisation Partners:

WinMagic partners with a number of Technology Partners, in particular with PKI, smartcard and hardware token vendors, in order to establish multi-factor user authentication at PRE-BOOT time. WinMagic's Technology Partners include: Entrust, Baltimore, CRYPTOCARD, ActivCard / ActivKey, Giesecke & DeVrient (G&D), Rainbow, Eutron, DataKey, Aladdin eToken, Schlumberger, among others.

Partnering Needs/Opportunities:

WinMagic are looking for dedicated **Channel Partners** (distributors, value added resellers, consultants) throughout the world.

Presenter Biography: Martijn Vrugteman

WinMagic Inc. develops Disk Encryption software for the enterprise and the public sector. Its SecureDoc line of products protects sensitive and confidential data on the hard disks of a desktop or laptop in case it is lost, stolen or otherwise compromised. SecureDoc has earned an impressive list of validations such as Common Criteria, FIPS 140-1 level 2; its FORTEZZA-based version is the only disk encryption certified by the NSA for protection of SECRET data in US government agencies.

Crowned with the Editor's Choice Award from Network Computing magazine in September 2002, SecureDoc breaks away from the competition, scoring an A compared to C and D for other well-known encryption products. It has also won the Reader's Choice Award of Windows and .NET magazine in the same month.

Trusted by the best, WinMagic Inc. has developed an extensive network of partners and resellers who are leaders in the information security and user authentication industry to provide winning security solutions and ensure accessibility to its products and services worldwide.
